

Vizlib from insightsoftware

**Transform your data. Elevate your BI.
Unleash the full power of Qlik Sense.**

Whether you deploy Qlik Sense on-premises or in Qlik Cloud, Vizlib's powerful, flexible suite of value-added products will transform your basic dashboards and reports into compelling data stories that are proven to make an impact. With out-of-the-box readiness, Vizlib tools help you get more out of Qlik Sense by empowering your teams to collaborate with others, edit data directly, and explore data freely.

 insightsoftware

Powerful Modules Designed for Qlik Sense

Library saves countless development hours by empowering your users to transform data into storytelling and deliver data-driven business solutions.

Self-Service ensures all types of users can explore data independently, discover meaningful insights faster, and make data-driven decisions with confidence.

Finance allows you to unleash the full potential of your financial data and make more informed decisions quickly.

Gantt enhances your project management in Qlik Sense with intuitive planning, visualization, and control.

Collaboration empowers your Qlik data-driven journey, enabling real-time team discussions, data editing, and workflow management.

Live! is a powerful tool offering direct query insights from your data cloud to your in-memory data.

Seamless transition into Qlik Cloud: Streamline your Qlik Cloud analytics experience. Access 40+ user-friendly visualizations for Qlik Sense, with no-code integration and Qlik Cloud compatibility.

Enhanced visualization experience: Elevate your visualizations effortlessly. Explore a wide range of charts, tables, styles, capabilities, and more with Vizlib. Empower everyone in your organization for data-driven decisions, not just developers.

Improved collaboration experience. Work seamlessly with your team using interactive write-back features. Edit data within your dashboards, leave comments, add notes, and share insights effortlessly through exports or embedded analytics.

“We could not imagine achieving the level of customization that’s required if we did not use Vizlib. It really adds huge value to our deployments.”

– Reshma Madithati, Technical Design Expert, Visual Analytics, Novartis
